*Estimated tax impact includes principal and interest payments on the new bonds, other capital and debt service levies, and capital project levies only, and do not include tax levies for other purposes. The amounts in the table are based on school district taxes for bonded debt levies only, and do not include tax levies for other purposes. Tax increases shown above are gross increases, not including the impact of the homeowner's Homestead Credit Refund ("Circuit Breaker") program. Owners of homestead property may qualify for a refund, based on their income and total property taxes. This will change the net effect of the proposed bond issue for those property owners.

For commercial-industrial property, the estimates above are for property in the City of Wayzata. The tax impact for commercial-industrial property in other municipalities in the school district may be slightly different, due to the varying impact of the Fiscal Disparities program.
